

<b>CASE TYPE:</b> Accidental Death	<b>FORENSIC LEAD:</b> Louise Brealing	<b>INVESTIGATING OFFICER:</b> Detective Sergeant Andrew Newton
---------------------------------------	--	--

**BLOOD SAMPLE**

We found two different types of blood at the scene, one clearly belonged to the victim, the other was probably because of one of our officers cutting themselves on something.

**Sample 1**

**Anti-A Serum**

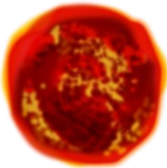

**Anti-B Serum**

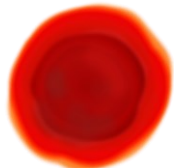

**Sample 2**

**Anti-A Serum**

**Anti-B Serum**

No point investigating further, after doing a bit of digging and identifying a list of potential suspects, we quickly came to the conclusion that this is an open and shut case - the victim clearly fell and hit his head.
